## Work Experience

Lead Front End Developer (Contract) - DPCode Inc. / Vancouver, Canada (May 2021 - Present)

- Mentoring members, managing tasks, One-on-one meetings, and reviewing their sources. My team has 6 people including me.
- Front end requirements definition, spec design, implementation.

Full Stack Developer / Technical Director - Medix inc. / Tokyo, Japan (June 2017 - August 2020)

- Created SPA for centralized management which useful knowledge within the company that was stored in various locations. That SPA is made with **Docker**, **Laravel**, **GraphQL** and **Vue.js**.
- As project leader, I selected technologies and supported members of the project team.
- Built a Staging environment and set a deployment system using **Github** webhook.
- Worked closely with other developers and UI designers in an agile environment.

Senior Web Developer - Strawbag inc. / Tokyo, Japan (November 2014 - October 2016)

- Created a CI system that combined **Bitbucket**, **Wercker**, and **Slack** to support development when I built a job-search management site using the **php Slim** framework.
- Cooperated and built some web applications with the Chinese coworker. That's when I supported him by creating task management, specification explanations, sample code, and documentation.

Junior Web Developer - BTM inc. / Tokyo, Japan (April 2013 - October 2014)

- Continued to release Smartphone game which over 100 php files, built with over 100 tables, used by over 10,000 people daily consistently.
- Created **Android** application that uses polymorphism in its design which is made with **Java** and I manage team tasks.

Junior Web Developer - I-Freek / Fukuoka, Japan (June 2012 - March 2013)

- Modified an existing program made with Perl and deploy it on **Linux** while checking the Apache conf file with Vim.
- Supported **Android** app which uses GPS made with Java using Eclipse.
- Wrote clean and stable code and accompanying documentation.

## Projects

Dpcode Academy - <https://dpcode.academy> (May 2021 - Present)

- Tech Stack: **React/Next.js/Cognito/Api Gateway/DynamoDB/scss**
- People who want to study computer science, algorithms, and something like that can sign up for online classes from this site.
- Students can know which lectures they have attended, and the instructor can control the content and duration of the lectures.

Queen's game (April 2021 ~ July 2021)

- App Store: <https://apps.apple.com/us/app/queens-game/id1575671780>
- Tech Stack: **Swift/Realm/MVVM/RxSwift/Core Animations/Figma**

S-Portal (Jun 2019 - August 2020)

- Tech Stack: **Vue/SPA/GraphQL/Laravel/Docker**
- SPA for centralized management of knowledge related to site production, accessed daily by 80% of all employees

FeedLP (January 2018 - September 2019) - <https://www.itstaffing.jp/lp/fd002/?mfeed=D210100838D>

- Tech Stack: **React/Go/AWS Fargate/Docker/MySQL**
- We made an API for the job information used in the feed ads and used React to display it dynamically. The UI is now ready to be updated without any work on the server-side.

Landing Page and Wordpress (Occasionally 4 to 5 site per year)

- Tech Stack: **html/css(scss)/JQuery/Vue.js/php**
- Perfect coding using **css grid** and **flex-box** based on the design data (psd) to improve conversion rates.
- <https://www.iprimo.jp/> | <https://www.exchangeuse.com/> | <https://www.nichiiweb.jp/kaji/>

Original CMS (November 2014 - September 2016)

- Tech Stack: **php/Laravel/Slim/Phalcon/Cakephp/Zend/Smarty/MySQL/JQuery/JavaScript**
- Creation of portal sites for group companies and renewal of architect office sites
- <https://www.pharmaproduct.co.jp/>
- <https://mynavi-job20s.jp/>

Web browser Social game applications (January 2014 - October 2014)

- Tech Stack: **php/Smarty/MySQL/JavaScript/Jira**
- Continued to release Smartphone game which over 100 php files, built with over 100 tables, used by over 10,000 people daily consistently.

## Education

Cornerstone International Community College of Canada / Vancouver, BC (September 2020 - present) / Web and mobile app development diploma  
Fukuoka University / Fukuoka, Japan (April 1997 - March 2001) / Bachelor's Degree of Commerce
